Application for 1-d-1 (Open Space) Agricultural Appraisal for 2018

IMPORTANT INFORMATION FOR APPLICANTS

Article 8, Sec. 1-d-1, Texas Constitution, and Chapter 23, Subchapter D, Tax Code, provide for appraisal of agricultural land based on the land's ability to produce agricultural products. Land qualifies for 1-d-1 appraisal if it has been used for agriculture in the past, used to protect federally listed endangered species under a federal permit or used for conservation or restitution projects provided for under certain federal and state statutes and is currently used for agriculture at the same level as typical prudent producers in your area. If you have questions on completing this application or on the information concerning additional taxes and penalties, you may want to consult the State Comptroller's Manual for the Appraisal of Agricultural Land and/or the appraisal district staff.

You must complete this application in full and file it no later than April 30 of the year you are applying for agricultural appraisal. If your application is granted you do not need to file again in later years unless the chief appraiser requests a new application. You may file a late application up to midnight the day before the appraisal review board approves appraisal records for the year. Approval usually occurs in July. If you file a late application and your application is approved, you must pay a penalty equal to 10% of the tax sayings resulting from agricultural

for the production of human food or program or normal crop or livestock rotation procedure and wildlife management.

Wildlife management means actively using the land that at the time the wildlife management use began was appraised as qualified open-space land under the subchapter in at least three of the following ways to propagate a sustaining breeding, migrating or wintering population of indigenous wild animals for human use, including food, medicine or recreation; habitat control, predator control, providing supplemental supplies of water or of food, providing shelters or making census counts to determine population. Wildlife management is also actively using land to protect federally listed endangered species under a federal permit if the land is in a habitat preserve subject to a conservation easement or part of a conservation development under a federally approved habitat conservation plan restricting the use of the land. Actively using land for a conservation or restoration project under certain federal and state statutes is also wildlife management.

Agriculture land use categories include: irrigated cropland, orchard, improved, improved pastureland, native pastureland and other classes typical in

Wildlife Management Use: If you are using land to manage wildlife, you must complete and attach a five-year Wildlife Management Use Plan on the form prescribed by the Texas Parks and Wildlife Department, and documentation of the activities performed. No exceptions.

| | | | | |

After you file this application, your Chief Appraiser may require additional information from you before qualifying your land. The additional information may only relate to your current and past agricultural use or to the level at which you use your land for agriculture.

You must notify the chief appraiser in writing if you: stop using your property for agriculture (e.g., you voluntarily decide to stop farming); change the category of your use (e.g., you change from dry cropland to irrigated cropland); change the level of your use (e.g., you substantially increase or decrease the number of cattle you raise); change the nature of your use (e.g., you switch from growing corn to growing ornamental plants or you switch from pasture to wildlife management); enter, leave or change the governmental programs (e.g., you put 100 acres in CRP); or if you begin using your land for something other than agricultural (e.g., you build a shopping center on your land). You must deliver this notice of change in primary use to the Chief Appraiser, no later than April 30 following the change in use or eligibility.

If your land receives agricultural appraisal and you fail to notify the chief appraiser of a change in agricultural use, you may be required to pay a penalty. You will be required to pay a substantial additional tax plus interest (a rollback tax) if you stop using all, or part, of the property for agriculture.
